## Short bio (50-150 words max)

Hi, Syakir here, 26 this year. I'm just a "Normal guys normal life but with different possibilities". I can do everything such customizing cars and motorcycle, making videos and a lot of things that need creativity.

I grew up normally like anybody else, at first, I was not involved in car culture but along the way I met a lot of new friends that gave me the opportunity to learn something new like modification cars, do wiring and fixing cars.

From this experience I learnt that we must step out of our comfort zone and start learning something new; we must fail first, to succeed later.

For know my project is to Bolt on turbo my car, please follow my socmed to see my final progress.
