Shortbio

I'm a 23-year-old who starts every morning with yogurt and apples— my little ritual for a fresh start. I've been obsessed with K-pop since I was in Standard 5, and it's been a big part of my life ever since. Pink is my favorite color, and it shows in everything I own, especially my beloved pink Instax Fujifilm. I love capturing moments, whether it's through my phone or instant photos, because memories mean everything to me. Still learning, still discovering what life has to offer, I find joy in simple things and try to live each day with a soft heart.
